

TWINTILE

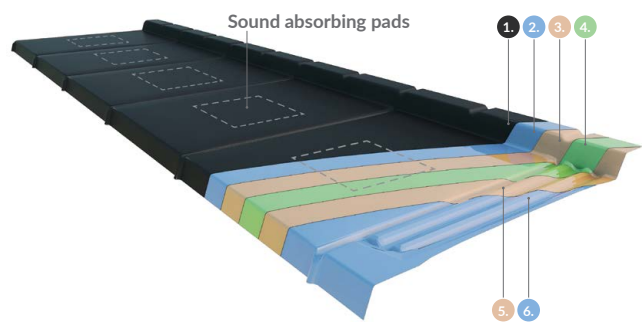

QUBE ACOUSTIC – a rectangular shape in harmony with today's desire for simplicity & beauty.

Its combination of a modern design and 0.6 mm thick ZM250 quality steel ensures that this particularly elegant roofing is resistant to even the most extreme elements. The QUBE ACOUSTIC roof tile has special sound patches attached to its lower side to improve sound insulation.

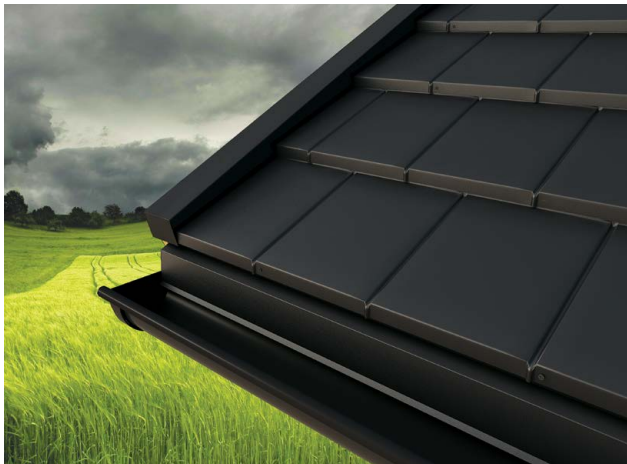

Also available in a lighter, non-noise reducing version, QUBE.

TWINTILE

Simple is beautiful. The old adage gains new meaning with PLANO. PLANO is not only simple and beautiful in its appearance but also in its usage. The first choice when projecting your new home exterior or renovating existing buildings with a fresh and contemporary look must be PLANO - a new metal facade system made of 0.5 mm thick ZM250 steel.

The product is finished with a Super Durable, stylish, scratch resistant powder coating, with Ultra UV-resistant surface coating.

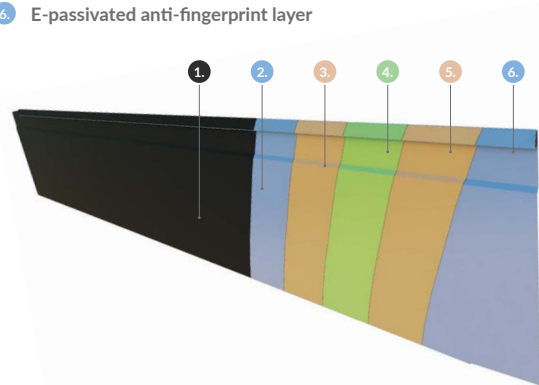

Combining roofing and facade systems, TwinTile allows you to design a unique solution for your building. With multiple design options that adapt to your needs, only your desire and imagination are the limits.
