

**WHATEVER
COMES :)
DON'T WORRY,
IT'S
GERARD!**

 **GERARD**
The worry-proof roof

GERARD® CLASSIC

DESIGNED FOR HOMES THAT NEED A BOLDER, STRONGER-LOOKING ROOF, GERARD CLASSIC TILE MIXES EDGY INNOVATION WITH OLD-WORLD CHARM.

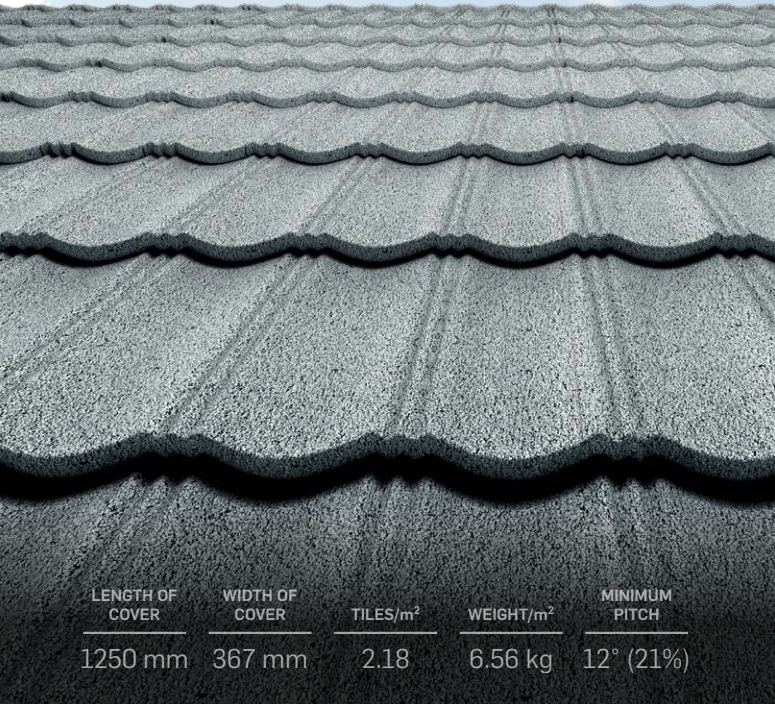

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1265 mm | 369 mm | 2.14 | 6.56 kg | 12° (21%) |

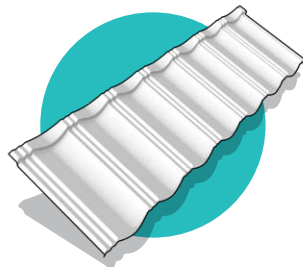

GERARD® HERITAGE

TIMELESS AND ELEGANT, GERARD TILE HERITAGE HAS THE SCALLOPED PROFILE TYPICAL OF TRADITIONAL TERRACOTTA TILES.

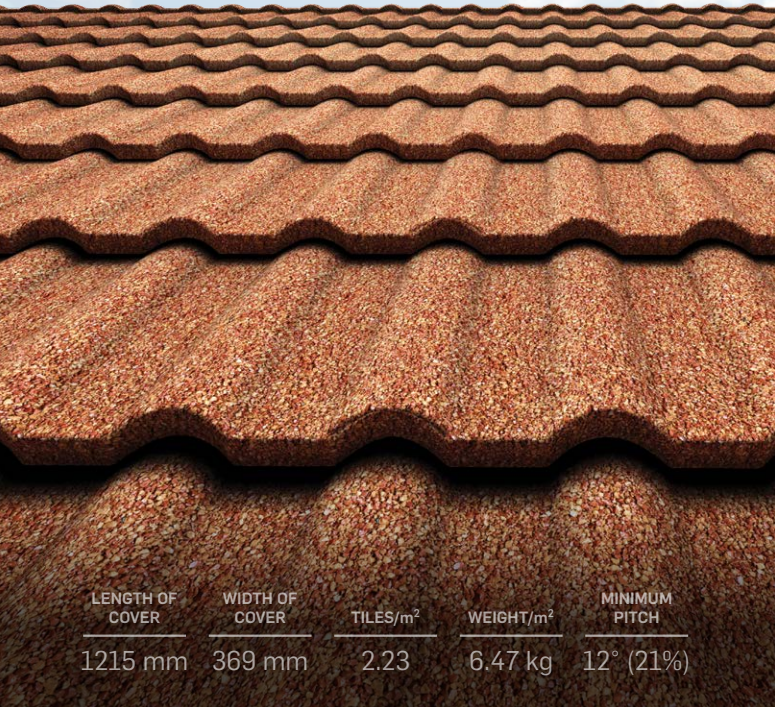

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1250 mm | 367 mm | 2.18 | 6.56 kg | 12° (21%) |

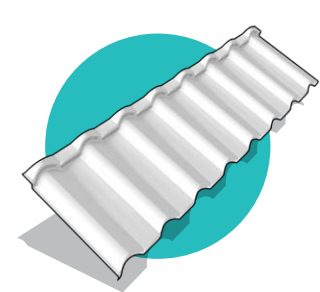

GERARD® MILANO

INSPIRED BY TRADITIONAL ROMAN TILE DESIGN, GERARD TILE MILANO LOOKS SMOOTH, CLEAN AND CLASSIC. ITS TIMELESS PROFILE MAKES A STRONG STYLE STATEMENT, ESPECIALLY ON STEEPLY PITCHED ROOFS.

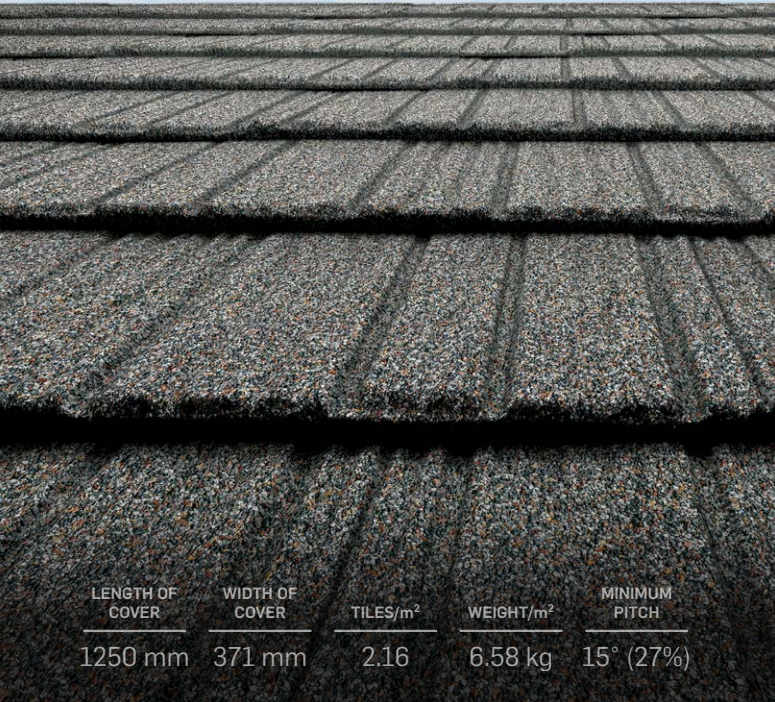

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1215 mm | 369 mm | 2.23 | 6.47 kg | 12° (21%) |

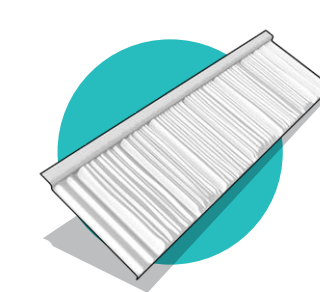

GERARD® CORONA SHAKE

REFLECTING THE CHARM OF COLONIAL TIMES, GERARD TILE CORONA SHAKE IS DESIGNED TO REPLICATE THE LOOK AND FEEL OF A HANDMADE REAL-WOOD SHAKE.

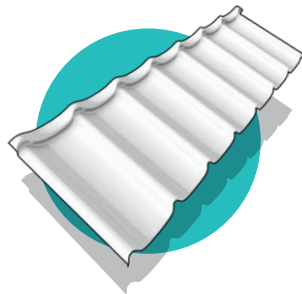

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1250 mm | 371 mm | 2.16 | 6.58 kg | 15° (27%) |

GERARD® DIAMANT

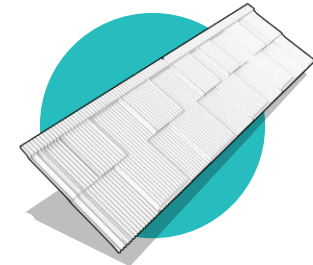

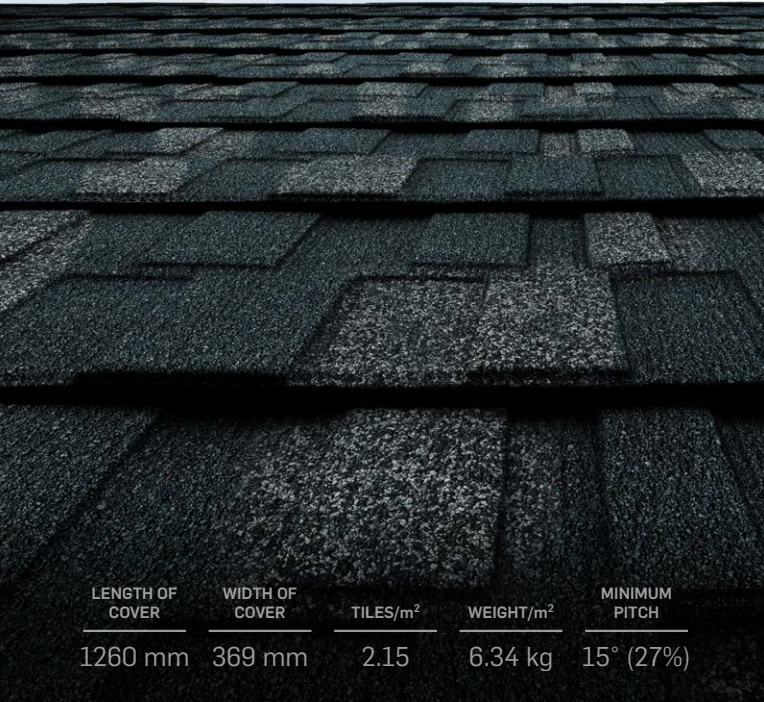

GERARD DIAMANT TILE - INSPIRED BY ONE OF THE TOUGHEST AND MOST ENDURING MATERIALS KNOWN TO MAN. SAVES 10% OF THE ROOFING TIME AND 10% OF YOUR BUDGET.

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1270 mm | 398 mm | 1.98 | 5.90 kg | 14° (25%) |

GERARD® SENATOR SHINGLE

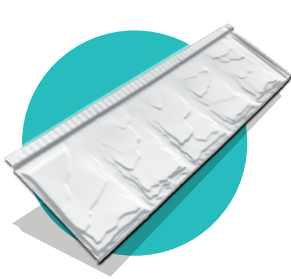

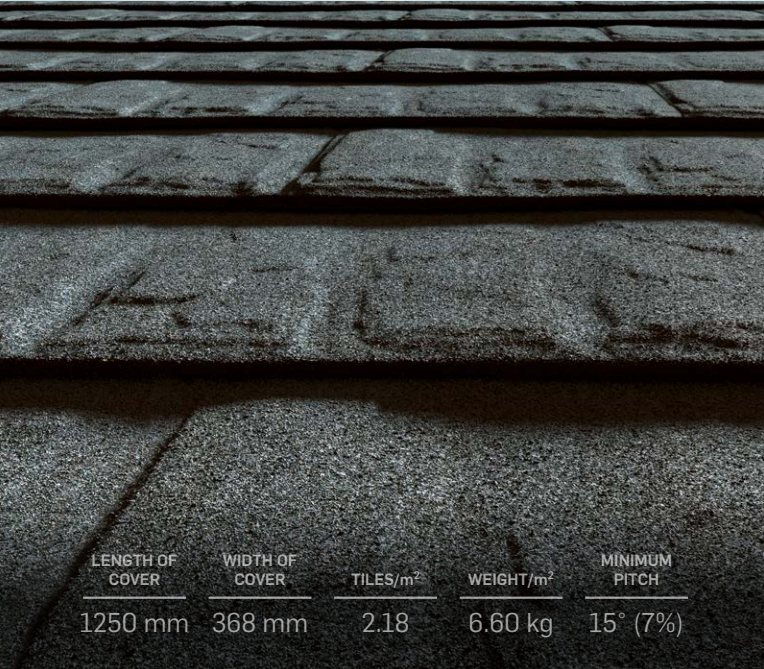

A STYLE STATEMENT THAT WORKS WITH CONTEMPORARY AND TRADITIONAL ARCHITECTURE, GERARD SENATOR SHINGLE HAS A DISTINCTIVE VERTICAL-RIDGE TEXTURED FINISH THAT GIVES YOUR ROOF SOLIDITY AND CHARACTER.

| LENGTH OF COVER | WIDTH OF COVER | TILES/m ² | WEIGHT/m ² | MINIMUM PITCH |
|-----------------|----------------|----------------------|-----------------------|---------------|
| 1260 mm | 369 mm | 2.15 | 6.34 kg | 15° (27%) |

GERARD[®] ALPINE SLATE

INSPIRED BY THE LOOK OF TRADITIONAL SLATE ROOFS, THE GERARD ALPINE SLATE PROFILE BRINGS A SMOOTH, LINEAR LOOK WHILE SURFACE DETAILING ADDS A SLIGHTLY RUSTIC OVERTONE. THE PROFILE HAS A SIMPLICITY THAT WORKS WITH BOTH, CONTEMPORARY AND TRADITIONAL ARCHITECTURE.

THE ROOF WITH TRADITION – FROM NEW ZEALAND TO THE ROOFTOPS OF THE WORLD

GERARD® Roofs are the culmination of decades of development that began in New Zealand in the early 1950's. GERARD® Roofs can be found in over 130 countries worldwide.

RESISTANT TO EXTREME CLIMATIC CONDITIONS

A GERARD® roof defies high winds, heavy rain, snow, ice and hail. It is a roof for tomorrow's climate.

LIGHTWEIGHT AND IDEAL FOR RE-ROOFING

A GERARD® roof is up to 7 times lighter than traditional roofing products. This means substantial savings can be achieved in structural costs – no need to replace or strengthen the existing roof substructure. GERARD® tiles are not heavy or bulky, which reduces delivery costs and enables transportation to remote or mountainous areas not easily accessed by heavy goods vehicles.

MAINTENANCE AND WORRY FREE

Once installed it requires no maintenance and will protect your house for many years to come.

EXTREMELY LONG LASTING

GERARD® is guaranteed to be long lasting. Aluminium-zinc and Zinc-Aluminium-Magnesium coated steel provides superior long term corrosion resistance.

FIRE RESISTANT

GERARD® roofs have passed stringent international fire tests. The incombustible steel substrate and surface coating prevent the spread of flames when exposed to fire. The lightweight nature of GERARD® roofs considerably reduces the potential for the roof to collapse.

NOISE RESISTANT

Although GERARD® roofs are made of metal, they are not noisy. Carefully selected chip stone granules provide excellent surface coverage and minimises the noise of rain on the roof.

ENVIRONMENTALLY FRIENDLY AND RECYCLABLE

Steel can be recycled infinitely, without losing any of its qualities. Rainwater collected from GERARD® roofs has been tested and meets the World Health Organisation's criteria for drinking water.

50 YEARS WARRANTY

GERARD® offers you a 50 years limited Waterproof Warranty, in addition to quality customer service. For more information please have a look on our website.
